**DRAWBACKS.**

Section two of the Tariff Law Amendment Law, 1923, Law 23 of 1923 (which substitutes a new section for section sixteen of the Principal Law) is hereby repealed and the following section is substituted for section sixteen of the Principal Law:—

"16. If any goods, wares and merchandise upon which any duty shall have been paid under this Law, are duly exported within two years of their first importation there shall be a drawback in respect of such goods of an amount equal to the preferential duty mentioned in the column headed 'preferential Tariff' of the first Schedule to this Law: provided that where any duty has been paid on goods exported as ships stores or on any of the articles enumerated in the Fourth Schedule to this Law there shall be a drawback equal to the amount of duty paid if the article is exported within two years of its importation; provided further that such goods are exported in the original, whole and unbroken packages in which the same were imported, and that no drawback of duty shall be allowed unless the amount of drawback on any one transaction is not less than four shillings."

3. Goods, wares and merchandise upon which any duty under Law 2 of 1922 shall have been paid, on its being proved to the satisfaction of the proper Officer of Customs that a mistake has been made and that such goods are not the goods ordered by the Importer and that such goods have been returned to the Exporter, if duly exported within three months of their first importation, shall receive a drawback of the full duties paid on importation.

17. The duty paid on provisions and stores supplied by local merchants or contractors to His Majesty's Navy or Military Authorities in this Island for the use of His Majesty's Navy or Army, or to Naval Officers, or Naval Messes or to other branches of the Public Service and to Public Institutions, shall be refunded under such conditions and regulations as may from time to time be prescribed by the Governor in Privy Council.

Provided that such drawback or refund shall be limited to such articles as would have been entitled to be admitted free of duty, had they been in the first instance consigned to the purchaser.

18. There shall be paid a drawback equal to the duty paid on their importation on shipbuilding materials, or accessories of any kind for shipbuilding which shall have been imported into this Island and used in the construction or repairs of foreign-going vessels of any kind, on presentation to the Chief Officers of Customs at the port of importation of a certificate to the effect that such materials and accessories have been used as aforesaid under the hand of the builder or repairer of such vessel or boat, who used the same together with a declaration from such builder or repairer that he believes such ship-building materials and accessories to have been imported into the Island.

Paints and oils used in painting any foreign-going ship while temporarily in port shall be included in the term accessory.

19. Drawback of duties shall not be payable on goods which have become unmerchantable subsequent to importation or which have been in actual and bona fide use.

20. Where imported materials on which duty has been paid are used in the manufacture or putting up of articles manufactured or produced in this Island there shall be allowed on the exportation of such articles a drawback equal in amount to the duty paid on such materials so used: Provided, that when the articles exported are made in part from domestic materials, the imported materials or the parts of the articles made from such materials shall so appear in the completed articles, that the quantity or measure thereof may be ascertained.

Provided also that where the actual quantity or measure cannot be ascertained by ordinary method it shall be lawful for the Governor in Privy Council by regulation made under Section 16 of this Law to approve an approximate scale of drawback.

21. On the exportation of bread or biscuit manufactured in this Island of imported flour, there shall be paid a drawback equal to the duty mentioned in the column headed "Preferential Tariff" of the First Schedule, on the flour used in making the same, but not to exceed the duty payable on a like quantity of bread or biscuit imported.
22. The several drawbacks under this Law shall be subject to the regulations and provisions of the several Acts or Laws for the time being in force with reference to such drawbacks.
23. In construing the language employed in Schedule 2 of this Law to describe articles intended to be free of duty the articles named as free must be considered in their primary character in relation to the use under which exemption is given. When the character of such articles has been added to, modified or changed by embellishment or combination with some other article whose primary character is other than that described against the article on the free list the consideration as to whether the composite article is liable to duty shall be the relative value of the component parts considered under the two schedules of the tariff, viz.:—the schedule imposing duty and the schedule granting exemption. If the value of the dutiable portion exceeds the value of the portion coming under a description on the free list then duty shall be charged on the composite article; but if the value of the portion formed by any items appearing on the free list exceeds the value of the portion not exempted then the article considered in its complete character shall be exempt from duty.

No. 593.—The Acting Governor in Privy Council on the 31st July, 1928, under Section 4 of Law 4 of 1869, made the following Rules for regulating the procedure where drawback is claimed upon exportation of merchandise or shipments of stores or where stores are shipped ex-warehouse.

*Rules made by the Governor in Privy Council under Section 4 of Law 4 of 1869, for regulating the procedure where drawback is claimed upon exportation of merchandise or shipment of stores, or where stores are shipped ex-warehouse.*

Save as hereinafter laid down in the case of goods exported through the post, before drawback may be allowed on any goods exported such goods shall be entered in triplicate in accordance with form A contained in the Appendix to these Rules.

2. Full details of any goods to be presented for shipment on drawback must be given on the export entry, which shall be supported, in the case of goods subject to advalorem duties, by the invoice that accompanied such goods on their importation, and by such other documents substantiating the accuracy of the particulars entered as the proper Officer of Customs shall require; provided that if the exporter shall present an extract from or copy of the said invoice, giving all details relating to the package or packages to be exported contained in such invoice, then such extract or copy, on being compared with the original invoice, shall be certified as a true extract or copy by the Officer to whom the export entry is presented, and the invoice may thereupon be returned to the exporter; provided further that in cases where the Chief Officer of Customs at any port shall be satisfied that it is impracticable to produce the said invoices, extracts or copies prior to shipment of any goods for drawback and if he shall be satisfied that an account may be taken of such goods sufficient for purposes of revenue protection, he may at his discretion, and subject to such conditions as he shall deem necessary, permit entry for drawback without production thereof; but in every such case the invoices, extracts or copies certified as aforesaid shall be lodged with the said Chief Officer of Customs within three days of the shipment of such goods.

3. Before any goods shall be examined for drawback, the original and duplicate copies of the export entry shall be produced to the Examining Officer together (in the case of goods chargeable with duty advalorem) with the invoice, or certified copy thereof or extract therefrom, and other supporting documents as aforesaid.

4. All goods presented for exportation on drawback shall be shipped in the original whole and unbroken packages in which they were imported, containing the full original distinguishing marks and numbers as shown on the invoice or import entry, and without any additional wrapper or covering of any description. Provided that where under any special provision of the Law for the time being in force, the goods exported are goods returned to the supplier as not being the goods ordered to be imported, the requirement as to whole and unbroken packages may be dispensed with, if the Collector of Customs shall be satisfied that the identity of the goods exported with the goods imported can be established.

5. No goods may be shipped for drawback save from a wharf approved as a landing place having a *Special Store* attached thereto, provided that in any particular case where the Chief Officer of Customs at any port shall be satisfied that a hardship would be caused by the strict observance of this Rule, and if arrangements may conveniently be made for the due examination and *immediate shipment* of such goods from some other wharf, he may sanction the shipment thereof on drawback subject to such additional conditions as he may deem necessary.

6. All goods entered for drawback shall be examined by the proper Officer of Customs at the wharf whence such goods are intended to be shipped, and if, on account of the non-arrival of the exporting vessel, such goods may not immediately be shipped, they shall be removed forthwith to a *Special Store* at the same wharf and there kept under official custody until the time of shipment; and the officer who conducts the examination shall retain the invoice or certified extract or copy and other documents, and forward them to the shipping officer, attached to the original and duplicate copies of the export entry.

7. The Collector of Customs at the port of Kingston shall issue instructions, subject to the approval of the Collector General, for regulating the extent of the examination of any particular goods or class of goods entered for exportation on drawback at any port; provided that such instructions shall not prevent the said Collector, or the Chief Officer of Customs of any port from requiring in any particular case an examination greater in extent than that laid down in such instructions.

8. Immediately upon the examination of any goods entered for drawback and required by these rules to be taken to a *Special Store*, such goods shall be plainly marked in such manner and colour as the Collector of Customs of the port of Kingston shall direct; and where any goods so marked are short shipped, the marks shall be obliterated before the goods are removed from the *Special Store*; and any person who shall remove any package contrary hereto shall incur a penalty of fifty pounds.

9. Upon the examination of any goods entered for drawback, the Examining Officer shall complete the certificate required on the back of both the original and duplicate copies of the export entry, and where he shall have marked any package in accordance with the preceding Rule, he shall state the number and nature of such marks for the information of the officer shipping the goods.

10. At every approved landing place whence goods are at any time to be shipped for drawback, there shall be kept a register of examinations of drawback goods in such form as the Collector General shall require, and where any goods are examined for drawbacks, a full record of the nature and extent of the examination shall be made therein at the time of examination, or within two hours thereof if it is only practicable to take rough notes of the examination at the time when it shall be made.

11. All goods which shall have been examined for drawback shall, upon shipment thereof, be certified as shipped by the proper Officer of Customs in the space provided on the original and duplicate copies of the form of entry; and such certificate shall be supported by the receipt of the Master or Mate of such vessel, and shall state in words the number and kind of packages.

12. No drawback shall be allowed on any goods shipped as stores save upon application in triplicate made according to Form B contained in the Appendix to these Rules, containing the several particulars required thereby, signed by the Master of such vessel, and showing the full quantity of duty free stores required, whether to be shipped ex-warehouse or on drawback; provided that in the case of a vessel making less than 12 hours stay in port, such application may be signed by the Agent or person duly authorised by the Agent to sign on his behalf, pending the counter-signature of the Master on arrival of the vessel.

13. No greater quantity of goods may be shipped as stores upon any vessel than the Collector or proper Officer of Customs shall deem necessary for the use of such ship, having regard to the number of the crew and passengers on board, and the probable duration of the voyage on which she is about to depart.

14. All goods exported as ships' stores upon which drawback may be required shall be entered in like manner and shall be subject to the same conditions as regards production of invoices and other documents, examination, marking and certification of examination and shipment as goods exported as cargo; provided that the receipt on board of such stores shall be certified by the Purser or other officer responsible for the receipt of stores, and countersigned by the Master.

15. All goods shipped ex-warehouse as ships' stores shall be dealt with in a manner similar to stores shipped on drawback, save that the production of invoices may be dispensed with unless demanded in any particular case by the proper Officer of Customs, and provided further that entry shall be made in duplicate in the Form C in the Appendix to these Rules.

16. Samples of all goods shipped for drawback, whether as merchandise or stores, shall be drawn by the Examining Officer prior to shipment to the extent laid down in any instructions issued by the Collector of Customs, Kingston, with the approval of the Collector General from time to time.

17. Where, owing to the nature of the packing of any goods entered for drawback, it is impracticable or undesirable for them to be examined at the wharf whence they are to be exported, the Chief Officer of Customs at any port may sanction their examination, upon the receipt of a written request to do so, at the premises of the exporter, if he shall be satisfied that such request is reasonable, subject to payment of a fee of 5/- for every hour or part of any hour which the Examining Officer occupies in examining the goods and in proceeding to and from the place of examination, and the payment of the Examining Officer's and for Guard's out-of-pocket expenses. Provided that every such package immediately upon examination thereof shall at the expense of the exporter be wired and sealed, so that none of its contents may be abstracted. Provided also that such package shall be placed in charge of a Customs Guard from the time of examination until such time as it is delivered into the custody of the proper Officer of Customs at the wharf whence it is to be shipped. Nothing in this Rule shall be held to prevent the proper Officer of Customs, should he deem such a course necessary, from further examining such goods at any time prior to their shipment.

18. A record of examination under Rule 17, and of any subsequent examination shall be made as soon as is practicable in the register mentioned in Rule 10, and the certificate of original examination as well as the certificate of any subsequent examination that may be made at the wharf, shall be given on the original and duplicate copies of the export entry.

19. The duplicate copy of each export entry after being compared in the Collector General's Office with the original and certified as correct in all respects, shall be the voucher for the refund of duties claimed as drawback.

20. Goods which have been imported by Parcels Post may be re-exported on drawback by Parcels Post in accordance with these Rules modified as follows:—

- (a) Submission of goods intended to be exported to a Collector or Sub-Collector of Customs or a Collector or Assistant Collector of Taxes (or in Kingston the Parcels Post Clerk), for examination shall be considered the equivalent of entry.
- (b) Certificates of examination shall be made by such officer, and recorded in a book at his office kept according to Rule 17.
- (c) If the original Parcels Post Declarant is produced, it may be accepted in lieu of the original invoice.
- (d) The receipt of the Post Office shall be accepted as equivalent to a certificate of shipment.
- (e) The exporter shall notify his intention to export any goods on drawback by Parcels Post in the Form D contained in the Appendix to these Rules, and such form shall also serve as the voucher for the refund of the duties paid on importation.

21. The Rules made by the Governor in Privy Council on 14th May, 1912, are hereby repealed.

22. These Rules shall come into force on the first day of September, 1928.

Made by the Governor in Privy Council this 31st day of July, 1928.

No. 3—1934.

[L.S.]

A. S. JELF,  
Acting Governor.  
7th June, 1934.

## A LAW to Regulate the Importation of Textiles.

[7th June, 1934.]

BE it enacted by the Governor and Legislative Council of Jamaica as follows:—

1—This Law may be cited as the Importation of Textiles (Quotas) Law 1934.

2—In this Law unless the context otherwise requires—

“quota” means the quantity of textile goods or any class or classes of textile goods manufactured in any individual foreign country which may be imported during any period in accordance with a proclamation made by the Governor under section three of this Law;

“quota period” means any period in respect of which any quota has been fixed by the Governor under the said section;

“foreign country” means any country or territory not being a part of the British Empire as defined by section three of the Tariff Law Further Amendment Law, 1932 (Law 14 of 1932) as amended by section four of the Tariff Further Amendment Law, 1933. (Law 23 of 1933);

“regulated textiles” mean any textile goods, and any class or classes of textile goods manufactured in a foreign country, in respect of which any quota has been fixed by the Governor under section three of this Law;

“prescribed” means prescribed by Regulations under this Law.

3—(1) The Governor may fix by proclamation published in the Gazette the total quantity of textile goods or of any class or classes of textile goods manufactured in any foreign country which may be imported during any period.

(2) The quota period specified in any proclamation made in accordance with sub-section one of this section may commence prior to the coming into operation of this Law; and any imports of regulated textiles between the commencement of the period and the coming into operation of this Law may be taken into account for the purposes of section eight of this Law: Provided that no importation made prior to the coming into operation of this Law shall constitute an offence under section ten of this Law.

4—(1) No person shall import any regulated textiles otherwise than in accordance with a direction given under the proviso to Section 9 of this Law, except under licence issued by the Collector General.

(2) Every licence issued under this Section shall state the quantity, class, and country of manufacture of textile goods which may be imported under it and the period during which the licence is valid.

(3) Applications for licences to import any regulated textiles shall be made to the Collector General at such time as he may specify in a notice published in the Gazette and shall state full particulars of the quantity, class, and country of manufacture of the goods proposed to be imported under it.

(4) The period during which any import licence is valid shall fall wholly within a single quota period.

(5) The total quantity of imports of any regulated textiles, manufactured in any country, during any quota period which may be authorized by import licences issued under this Section shall not exceed the quota for that country fixed for that quota period.

(6) On the importation of any regulated textiles, the appropriate import licence shall be endorsed in the prescribed manner, and when the total quantity of goods the importation of which is thereby authorized has been imported, the licence shall be surrendered to the Collector General and cancelled.

(7) On the issue of an import licence a fee to be prescribed shall be paid by the person to whom the licence is issued.

5—(1) If it appears to the Collector General that, in respect of any particular foreign country and any quota period, the quantity of any regulated textiles in respect of which import licences are likely to be applied for will exceed the appropriate quota for that country and quota period, he may cause a notice to be published in the Gazette to the effect that the issue of import licences for the import of such goods will be restricted.

(2) Any notice issued under sub-section (1) of this Section shall specify the regulated textiles, the quota period and the foreign country to which it relates and shall further specify a period within which applications for import licences for such imports may be submitted.

(3) On the expiry of the period within which applications may be submitted, the Collector General shall consider all the applications received and, if the total quantity of goods covered by such application does not exceed the appropriate quota, he may issue import licences in accordance with all applications. If the total quantity of goods covered by the applications exceeds the appropriate quota the Collector General shall in his discretion, subject to the approval of the Governor, issue licences (hereinafter called “restricted import licences”) to the several applicants for quantities proportionate to the volume of their previous importations or to the quantities specified in their application or on any other basis.

(4) A restricted import licence issued at the time of the initial issue of such licences of the same class shall be valid until a date not less than three months before the end of the quota period to which it relates and shall lapse if and so far as it is not used by that date.

6—An import licence or a restricted import licence may, with the consent of the Collector General, be transferred from the person to whom it was issued to any other person designated by him.

7—No person shall import any regulated textiles unless he shall, at the time of importation submit to the Collector General in the prescribed form a return of quantity, class, and origin of the goods imported and a declaration of origin: Provided that during a period of four months after the coming into operation of this Law, imports of regulated textiles may, at the discretion of the Collector General, and subject to such conditions as he may impose either generally or in any particular case as to the subsequent submission of evidence of origin, be admitted without the submission of such a declaration of origin.

8—(1) The imports of regulated textiles manufactured in any foreign country shall be separately recorded by the Collector General.

(2)—Any person may at any time on payment of the prescribed fee, require the Collector General to furnish a statement of the total quantity already imported of any regulated textiles manufactured in any individual foreign country during any quota period and the Collector General shall furnish such statement accordingly.

(3) When the imports of any regulated textiles manufactured in any foreign country during any quota period attain the quota prescribed in respect of such textiles for such country in that period, the Governor shall issue a notice to that effect in the Gazette; and such notice shall specify the foreign country, the regulated textiles and the quota period to which it refers.

2. FORESTRY.

There is no Department of Forestry in Jamaica, in consequence of which information is not available as to the acreage of forest lands. The cutting of timber is done spasmodically here and there, but not as a generally recognized industry, and the possibilities of development are not encouraging in view of the broken nature of the country and the lack of transport facilities.

In December, 1927, the Afforestation Law, 1927—Law 33 of 1927 was passed, and on 3rd July, 1928, the Acting Governor in Privy Council, under the power conferred on him by Section 3 (a) of this Law, made an Order declaring certain Government lands, aggregating about 30,310 acres, to be a Forest Reserve. On 1st March, 1929, an Assistant Conservator of Forests, attached to the Lands Department was appointed.

During the year Mr. A. Wimbush, Chief Conservator of Forests, Madras, India, at the request of the Colonial Office made an investigation of the various aspects of Forestry in Jamaica, with a view to the formation of a forest policy for the Island. He arrived at Kingston on 28th October, and after an extensive tour of the Island and inspection of the various Crown Lands and Reserve Forests, submitted his Report to Government prior to sailing on the 24th December.

It is hoped that Government will be able to put the recommendations contained in Mr. Wimbush's Report into effect, and that better control will be established over existing Reserve Forests, and where possible, the serious effects of deforestation checked and re-afforestation of treeless areas carried out.

## YEAR 1935.

## METEOROLOGICAL RESULTS

## CITY OF KINGSTON.

The mean barometric pressure for the 12 months was for the 7 a.m., 29.938 inches; and for the 3 p.m., 29.889 inches. By applying the correction for the diurnal variation for each of these hours a mean of 29.924 inches is derived—which gives 0.008 inch below the 33-year normal of 29.932 inches. The months of February, March, May, June and November gave mean pressures slightly above the normal. The remainder of the (7) months slightly below. The month of March, 1935, shewed the highest mean bar. pressure of 29.991 inches and October, the lowest, 29.834 inches. The mean pressure for March was, therefore 0.157 inch above that of October, being the mean range.

The mean annual temperature, based upon four observations per day, (or 1,460 thermometer readings) during the year, was 78.3 degrees which is 0.4 degree below that of the 33-year normal of 78.7 degrees. The highest maximum temperature was 95.9 degrees which occurred on July 28th, and the lowest minimum was 61.1 degrees which occurred on January 30th. The monthly greatest extreme range was 28.4 degrees in January, and the least range was 19.6 degrees in May. The mean monthly extreme range was 23.4 degrees which is only 0.3 degree lower than the 33-year results.

The anemometer records (for the year 1935) shew a mean total of miles of wind per day of 184 which is merely 1 mile more per day than the 25-year average. The months of January, March, April, July, September and December were above the normal—and the months of February, May, June, August, October and November were below. The greatest daily mean of 235 miles occurred in July and the least mean was 131 in October.

The mean relative humidity for the 7 a.m. observation was 80% which shews 2% above the 33-year average, and the 3 p.m. observations was 65% or 4% below the average. The mean for the year gives 76% which is 3% below the 33-year average.

The total rainfall for the year, as registered at the Public Works Building, Port Royal Street, Kingston, was 26.54 inches, the 60-year normal being 31.57 inches. October had the greatest with 10.08 inches, and April the least with only 0.01 inch.

The total number of rainy days was 62 as against the 49-year average of 79. The greatest number of rainy days in one month was 16 in October and the least was one in April, also in November.

The amount of cloudiness for the year was 2% above the normal.

Summary of extremes for the year—Kingston.

In each monthly Weather Report there appear figures giving the extreme values of certain observations deduced, which may prove of interest.

Reference is made to this Table (page 18) of extremes for the months, by giving the annual extremes.

During the year 1935, February 20th gave the highest barometer reading as 30.069 inches, and October 21st read the lowest, with 29.491 inches. The temperature rose to 90 degrees and above on 15 days in September. And January, February, March, May, October and November were all below 90 degrees. Then the minimum temperature was below 70 degrees for 28 days in January and March, and was above 70 degrees throughout the months of May, June, July, August and September. The maximum number of miles of wind registered in 24 hours was 575 on 27th September, and the minimum was 79 on 19th October. The greatest velocity during a short interval of time was 42 miles per hour on 15th June. November 22nd gave only 18 m.p.h. as its maximum velocity. For the 7 a.m. the lowest percentage of relative humidity was 61% in May, July and September and the lowest for the 3 p.m. observations was 32% in July.

During the year the greatest rainfall in 24 hours occurred on 27th October, gauging 4.30 inches—and only 0.01 of an inch was gauged on 8th April.

## NEGRIL POINT LIGHT HOUSE.

The extreme maximum temperature recorded was 90.6 on the 28th of July, and the extreme minimum was 61.6 on the 14th of March. The greatest range was 26.2 in the month of January, and the least range was 18.9 in August. The greatest monthly rainfall was 12.70 inches in July, and the least was 0.16 of an inch in November. The total number of rainy days was 150 for the twelve months. The months of May and October had 19 days each, being the most, and January and November recorded only 5 days each. The year's total rainfall was 60.94 inches, which is about 13% above that of the 34-year normal of 54.09 inches.

## MORANT POINT LIGHT HOUSE.

The extreme maximum temperatures was 69.2 on 31st of July, and the extreme minimum was 63.1 on the 29th January. The greatest monthly rainfall was 22.12 inches in October, owing to the proximity of a hurricane on the 20th when 8.55 inches fell in 24 hours. There were 22 rainy days for September and October. The month of April had the least with only 0.34 of an inch. The year's rainfall total was 63.95 inches or equivalent to about 6% below the 60-year normal of 66.67 inches. During February, August, September and October, the rainfall was in excess of the monthly averages, but in the remainder of the months (8), there was a general deficiency. For the twelve months there were 167 rainy days, giving an average of 0.38 of an inch per rainy day.

## POSTAL INFORMATION.

Letters, Newspapers, and book-packets which are wholly *unpaid* will be liable to a surcharge equal to double the prepaid rate; and if they be insufficiently prepaid, to a surcharge equal to *double the deficiency*.

Private Post Cards prepaid by means of half-penny postage stamps may be sent by the Inland Post on the following conditions:—

They must be of ordinary card-board not thicker than the material used for the official inland Post Card. The maximum size must correspond as nearly as possible with the size of the inland official Card, and minimum size must not be less than 4 by 2 $\frac{3}{4}$  inches.

The rules and regulations relating to the official inland Post Card, and to the official foreign and Private Post Cards, apply equally to inland private Post Cards.

A private Post Card which does not conform to the above conditions will be treated as a letter and charged accordingly.

The postage on a parcel must be fully prepaid or it cannot be forwarded.

A Book Packet may not exceed 3 pounds in weight; nor 2 feet in length or 1 foot in width or depth except it be intended for transmission by Inland Parcels Post.

A Parcel may not exceed 8 ounces in weight, 2 feet in length nor 1 foot in width or depth, except it be intended for transmission by Inland Parcels Post.

Magazines printed and published in Jamaica, provided they are issued in consecutive numbers at intervals of not more than 31 days, are admitted to the *inland* mail at  $\frac{1}{4}$ d. per copy, irrespective of weight.

Newspapers, book-packets and parcels must be posted without a cover or in a cover open at the ends or sides *so as to admit of the contents being easily withdrawn for examination*; the mere clipping of the corners or of the sides of an envelope or other cover is insufficient. They must not contain any letter or communication of the nature of a letter, nor anything that may injure the officers of the Post Office or the contents of the mail bags.

If any letter or communication of the nature of a letter be found in a newspaper, book-packet or parcel it will be withdrawn and surcharged at the *wholly unpaid letter-rate of postage*. If inseparable the whole packet will be liable to the letter-rate of postage.

The following may, however, be transmitted at printed paper rate:

Old letters, which have apparently passed through the post before and have served their original purpose.

Copies of letters which do not bear a present date and which it is manifest are not serving the purpose of *original* letters.

Letters which are intended for publication in a newspaper or otherwise.

Circulars, *i.e.*, which, according to internal evidence, are being sent in identical terms to several persons and the whole or greater part of which is printed, engraved or lithographed.

Such letters and circulars must not, however, be closed in any manner and must be so put up as to admit of easy examination of their contents.

Any letter or other mail matter may be registered on pre-payment of the registration fee and postage.

Packet containing Money, Jewellery or other Value, *must be registered* and must be prepaid at the *letter-rate of postage*.

Any Packet found to *contain value*, but not registered will be liable to a surcharge equal to double the Registration Fee, *viz.*, fourpence.

N.B.—By Law the Post Office is not liable for the loss of any registered Letter or of its contents, but in order to meet the requirements of the Postal Union Convention, the Postmaster for Jamaica will be prepared to make good the contents of a REGISTERED LETTER lost while passing through the post *to the extent of two pounds*, in certain cases.

PROVIDED—1. That the sender duly observed all the conditions of registration required.

2. That the letter was securely enclosed in a reasonably strong envelope.

3. That application was made to the Postmaster for Jamaica immediately the loss was discovered. (When the complaint is that the contents of a letter have been abstracted the envelope must accompany the application, otherwise the question cannot be entertained.)

4. That the Postmaster for Jamaica (whose decision shall be final) is satisfied that the loss occurred while the letter was in the custody of the Jamaica Post Office and was not caused by any fault on the part of the sender.
